**File No.** Anatomy II/49 (N) 665-13

Gen. 104

Legal Department

The draft rules forwarded by the Surgeon General, are not in order. They unnecessarily include the definitions of the expressions of "near relative","lineal and collateral consanguinity and "unclaimed body" which are already defined in the Act. The only matter on which a rule is necessary is that referred to in section 2(5) of the Act which defines an unclaimed body to mean also a deceased person whose body has not been claimed by any of his near relative within such period as may be prescribed. The Surgeon General has also included those matters in the rules which are to be approved or specified under a notification (for instance the provision regarding approved institutions or authorised officer. The first part of draft rule 6 is outside the scope of the Act and cannot be provided for under a rule although there is no objection to issue executive ~~instructionsex~~ instructions in the matter.

2. The requisite draft notifications and draft rules are forwarded herewith. The H. and L.G.D. should fill in the details in all the drafts.
